AND OKANAGAN ORCHARDIST

VOLUME 18

Kelowna, British Columbia, Thursday, August 25th, 1921

NUMBER 1

THE PRAIRIE FRUIT MARKETS BULLETIN

Current Prices and Market Conditions

(From the Weekly Bulletin issued by J. A. Grant, Fruit Markets Commissioner, Calgary.)

August 20th, 1921.

The Week in Calgary
Sunshine, showers and the Elks' convention featured this week in Calgary. In the street parade about two thousand Elks took part. The Okanagan sent a full quota of delegates who included business with their pleasure. They distributed pamphlets along the route and showered the kiddies with apples. Some of the delegates found time to call at our office, including Messrs. D. McNair, Armstrong, W. McTaggart, C. L. Lowe and J. Galbraith, Vernon; E. Trask, Oyma.

The market conditions are dull, with a big supply constantly rolling in. The season is two weeks ahead of last year. Housewives will return from their summer vacation in a week's time for the school opening. Prairie markets, besides taking care of B.C. shipments, are being flooded with American produce of a like kind from Yakima and Washington. This stuff was sold by the visiting salesmen, and wholesalers expected it to move out before B.C. fruits are ready; the result is loss all round. Several mixed cars from Yakima containing apples, pears and plums arrived unsold and are being sold on consignment. B.C. tomatoes have slipped in price. Cucumbers are dragging at 50c per crate. New potatoes are being quoted from Edmonton at \$25.00 per ton f.o.b. shipping point.

The first case of lemon cucumbers arrived from Peachland this week. This new vegetable tastes like a high-class hothouse cucumber, and is about the size and colour of a large lemon. Small egg plants have been arriving on the market; it is hard to unload this small stuff.

All peaches so far have moved very slowly, and large quantities had to be repacked.

The first straight carload of Alberta potatoes has arrived in the city. Butter and eggs, prices same as last week. Fresh chickens, per lb., 30c to 32c.

Hay prices also remain same as last week.

Calgary Wholesale Prices

Apples, No. 1, wrapped, per box	\$3.75 to 4.00
Unwrapped, per box	2.50 to 3.00
Strawberries, Everbearing, crate	4.50 to 6.00
Raspberries, per crate	4.00 to 4.50
Apricots, No. 1, 4-basket crate	2.75 to 3.00
No. 2, 4-basket crate	2.50 to 2.75
Cherries, sour, fancy	3.00 to 3.50
Pears, Bartlett's, per case	4.25 to 4.75
Peach Plums, 4-basket crate	2.00 to 2.25
Plums, Abundance, 4-bkts. crate	1.75 to 2.00
Blueberries, Ontario, 15-lb. basket	3.50
Peaches, Triumph, good size	1.50 to 2.00
Crawford, Elberta, St. John, Slappy, per case	2.00 to 2.50
Transcendent Crabs, No. 1, case	2.25
Blackberries, per crate	2.75 to 3.25
Rocky Mountain Huckleberries, lb.	.15 to .18
Tomatoes, B.C., 4-basket crates	1.25 to 1.50
Green, per box	1.25 to 1.50
Hothouse, local, per lb.	.15 to .20
Green Corn, per doz.	.30 to .50
Cucumbers, B.C., Field, case	.90 to 1.00
Green Peppers, per lb.	.15
Citron, Squash, Pumpkin, Marrow, B.C., per lb.	.03 to .03 1/2
Turnips, Carrots, Beets, lb.	.03 to .03 1/2
B.C. Potatoes, lb.	.02 1/4 to .02 1/2
Alberta Potatoes, lb.	.02
Egg Plants, large, lb.	.12 1/2
Pickling Cucumbers, Gherkins, peach crate	1.50
Pickling Onions, Silverskin, peach crate	1.90
Celery, per lb.	.07 1/2 to .08
Cabbage, local, per lb.	.04
Onions, B.C., lb.	.04
Onions, Walla Walla, large, lb.	.05

Edmonton
EDMONTON, Aug. 17.—There has been a very large quantity of stuff come on this market in the past few days and market conditions at

LABOUR CHURCH PASTOR IS VISITING KELOWNA

Rev. W. Ivens Will Speak Here Next Week

Rev. W. Ivens, M.A., B.D., pastor of the Labour Church, Winnipeg, accompanied by Mrs. Ivens, is visiting his brother, Mr. J. I. Campbell, of Kelowna.

A noted figure in labour circles at the time of the Winnipeg strike, Mr. Ivens was brought to trial last year on charges in connection with the movement and was sentenced to a term of imprisonment, which he served. While still in prison he was elected a member of the Manitoba Legislature and on his release he took his seat.

Mr. Ivens strongly affirms his innocence of any criminal action and declares he plotted no seditious nor made any treasonable utterances. Although an avowed pacifist, he claims to be as good a British citizen as any and to be engaged in endeavouring to bring about a settlement of strife and contention by preaching a gospel of brotherliness and practical application of the teachings of Christ.

While he avows that he is visiting the Okanagan solely on his own responsibility and not as representative of any organization, the trip being taken primarily for the sake of a change of scene for his wife who is grieving over the loss of two children within a year, Mr. Ivens will tell his story to such as care to hear him under the title, "From Prison to Parliament," in the Board of Trade Building on Wednesday night next. The address will give his version of the causes of the Winnipeg strike and an account of the trials of those who were sentenced to imprisonment in connection with it.

POLICE REPORT FOR THE MONTH OF JULY

Cases in City Police Court

Breach of Government Liquor Act, 8
Breach of Motor Vehicle Act, 24
Breach of City Pound By-law, 1
Obstructing the Police, 1

Total cases, 34

Collections
Fines and costs imposed, collected and paid to City Clerk, \$545.00
Trade Licence money collected and paid to City Clerk, 1,170.00
Dog Licence money collected and paid to City Clerk, 6.00

Total collections, \$1,721.00

GLENMORE

Mrs. Stocks, mother of Mrs. G. Moubay, came up from Penticton last week.

Mr. and Mrs. LeQuesne motored to Vernon on Sunday. Mrs. LeQuesne expects to remain a few weeks.

Mr. W. R. White arrived from Vancouver on Saturday and is the guest of Mr. and Mrs. A. E. James.

Mr. and Mrs. F. Benson entertained at a house dance on Wednesday last, the guest of the evening being Miss Dorothy Atkin. Miss Atkin left for Vancouver on Tuesday to train for a nurse. Her friends wish her every success in the vocation she is taking up.

The residents of Glenmore appreciate the courtesy of the Mathieson Fruit Co. in granting them the use of their packing house for dances, etc., until the 1922 packing season commences.

Ranchers were reminded to fill up tanks this week. Like our East Kelowna friends, we have heard constant rumours about the water supply. We understand that this week closes the irrigation season.

Big tales still reach us from Wenatchee. If the latest published in a daily paper is correct, that a woman found a rattler in her bread box while a rancher killed twenty-two in his orchard in half a day, then Glenmore is good enough for most of us.

If determination will do it, the Fall Fair will be a great success. Mr. S. Elliott, who has spared himself nothing to ensure its success, left on Tuesday for an advertising campaign which will occupy him several days.

KELOWNA REPRESENTED AT PENTICTON REGATTA

Local Swimmers and Divers Carry Off Number of Prizes

About sixty-five people travelled by steamer, launch and motor car from Kelowna to attend the Regatta held at Penticton on Thursday last. There was a good crowd present and all the events were pulled off smoothly and without hitch. Kelowna representatives creditably upheld the reputation of the town for prowess in athletic sports and returned with a goodly number of prizes. For details we are indebted to a report in the "Penticton Herald" and to one of the Kelowna visitors.

The war canoe events were exciting. The Penticton Cadets repeated their victory over their Kelowna comrades, finishing two lengths ahead, but the boys were avenged by the seniors, who defeated Penticton by about three lengths. The Kelowna ladies also won their event by about a length and a half after a hard race, during which the Penticton crew held their own for about half the distance.

A novel feature was an aquatic tug-of-war, the members of the teams swimming on their backs. Penticton won with considerable ease from a scratch Kelowna team picked up for the occasion.

The sailing race, between Docker's "Adanac" of Penticton, and R. Leckie's "Onaway" of Kelowna, was a very slow affair at the start, from lack of breeze, but provided an exciting finish. The wind freshening, the "Adanac" rounded the last buoy two minutes ahead of the "Onaway", and during the last leg of the course the boats alternated in the lead, blanketing each other and jockeying for the windward gauge in the most approved manner. The "Onaway" was leading close to the finish but a slant of wind favoured the Penticton craft and she overhauled the Kelowna boat, finishing thirty seconds to the good.

Water Polo

Kelowna got decidedly the worst of the water polo game by the short end of a four to one score. The "Herald's" account of the match is as follows:

"The water polo match here on regatta day between Kelowna and Penticton resulted for a win for the home team by four goals to one. The match was not as interesting as that which was played between the same teams at the Kelowna regatta, owing largely to the fact that it was spoiled by the players on both sides being able to touch bottom at any time they desired to get a 'jump off.' The Kelowna players faced a blinding reflection of the sun during the first half, but it was not entirely due to that fact that they fared so badly. On several occasions they showed neglect in marking their men, while, on the other hand, the Penticton forward line, backed by a good defence, gave several displays of splendid combination work. Wraith, Penticton's left wing, was in splendid form and scored three times for the home team in the first half. Kelowna's first and only goal being put in by Edwards, Kelowna's left wing, just a few seconds before the whistle sounded for the change of ends.

"In the second half the home team made several good rushes against the Kelowna goal and scrimmages followed, but the ball was kept out from between the visitors' sticks, and Dacre, the Penticton goalie, was called upon to save three or four good shots. Hinkson, centre forward for Kelowna, was compelled to leave the water on account of an attack of cramp. He had been in previous events, and was seen to be shivering before he entered the water at the beginning of the match. After he fell out of the ranks the play was more than ever in favour of Penticton, and shortly before the end of the second half Wraith scored again for Penticton.

"Play closed with the score, Penticton, 4; Kelowna, 1.

"Penticton—Goal, Dacre; backs, Eadie and Huntley; half back, Kennedy; left wing, Wraith; centre forward, Doidge; right wing, Lowe.

"Kelowna—Goal, Day; backs, Hunt and Weatherley; half back, Foster; left wing, Edwards; centre forward, Hinkson; right wing, Boucher."

Aquatic Events

Kelowna proved too adept with the padded pole for the Penticton men in the tilting, and two Kelowna pairs had to fight the final out between

(Continued on Page 8)

GREATEST DISASTER IN HISTORY OF AIR FLIGHT

World's Largest Dirigible Explodes, Breaks in Two and Falls Into River With Death Toll of Forty-Three

HULL, Eng., Aug. 5.—Most graphic stories of the greatest disaster in the history of the air when ZR-2, the world's largest dirigible, exploded, broke in two and fell flaming into the River Humber yesterday afternoon, carrying sixteen Americans and twenty-seven British to their deaths, were told today by Flight Lieutenant A. H. Wann, commander of the airship, and Norman O. Walker, the only American saved.

"The whole thing happened in five seconds," Wann said, lying in Hull Hospital. "My ship was running beautifully at sixty knots an hour as we swung over the city of Hull. Our tests were nearly finished and we hoped to be down soon. I had just signalled that speed be reduced to fifty knots when suddenly I heard a terrific crack. I believe that several girders must have broken. The ship buckled and an explosion occurred, the cause of which will probably never be known.

"I felt the forward car, from which I was commanding the ship, falling swiftly through the air immediately after the loud crack amidstships, then it rose sharply at right angles. I pulled on the water ballast for the purpose of levelling the keel, when suddenly there was a terrific explosion which I felt and heard in the forward car, and I think many men were killed outright by the blast, for they would have been inside the envelope amidsthips.

"Some of the officers and crew jumped when the ship caught fire, but I remained on board until we were close to the water, then I jumped but was caught by wreckage and pinned down for fifteen minutes. Flaming pieces of the ZR-2 fell about me and I was burned about the head and face. I lost consciousness and when I woke I was in hospital."

The American survivor, Norman O. Walker, of Commerce, Texas, said, "No one will ever have a clear idea of just what happened. I was with two Britishers at the extreme tail of ZR-2. When the explosion shook the ship and she broke in two, our half fell tail downwards. Three of us clung on and we floated down towards mid-river, almost like a big bird settling on the water. It was almost like a parachute descent. I looked down and saw the water appearing to rush up at us, and when we were about thirty feet from the water I let go and dropped. I thought I would never come up, but when I did there were tugs and boats already speeding to engage in the work of rescue. The airship could scarcely have been in the water thirty seconds before they were on the job. I feel fine personally, and I smoked a cigarette immediately they pulled me out."

Thousands were gathered on the river front at dawn today, watching the search for the bodies of victims.

In a recent test in Stanley Park, thirty-eight persons refused to buy candy made in B.C., and asked for imported goods. There are several hundred candy-makers out of work in B.C. today. As long as the residents of the province continue such an attitude, unemployment will exist.

C. A. Nash, of Toronto, records an experiment with the robin as a cutworm destroyer. One young robin, kept in confinement, ate 165 cutworms in a day. Had he been compelled to find his own food, he would probably have varied his diet somewhat, as he would not likely find so many cutworms.

Canada has only 5 per cent. of the world's population but she produces: 90 per cent. of its cobalt, 88 per cent. of its asbestos, 58 per cent. of its nickel, 32 per cent. of its pulpwood, 20 per cent. of its lumber, 20 per cent. of its cured fish, 18 per cent. of its oats, 12 per cent. of its fish, 12 per cent. of its silver, 12 per cent. of its wheat, 11 per cent. of its barley, 4 per cent. of its gold, 4 per cent. of its copper.

CITY LOT AS SITE FOR BOY SCOUTS' HALL

Council Agrees to Give Lease of Property at Nominal Figure—Large Purchase of P.G.E. Bonds for Sinking Fund

Ald. Duggan was the only member of the Council absent from the regular meeting on Monday night.

A request from the Good Roads League of B.C. for payment of \$15 as annual subscription was granted, on motion.

Mr. R. Whillis appeared before the Council in connection with the house which he is to build under the Better Housing Act, and asked that the calling for tenders be expedited as much as possible. He explained that the house would cost considerably in excess of the \$3,500 loan, but he was willing to deposit a certified cheque for the difference, and on such account would like the privilege of examining the tenders.

Mr. Winham Morley, architect, submitted plans of the house and also of the residence to be erected under similar conditions by Mr. A. Edwards.

The Council agreed to arrange for Mr. Whillis to go over the tenders with the Housing Committee.

Mr. Morley suggested that, for purposes of protection against liens, the successful tenderer should be required to deposit a certified cheque for a certain percentage of the contract price.

After some discussion of the proposal by the Mayor and Ald. Leckie, it was decided that some such safeguard be incorporated in the conditions of the contract.

Messrs. W. J. Mantle, J. Ball and W. Lloyd-Jones waited upon the Council as a deputation from the Boy Scouts Association. Mr. Mantle acted as spokesman and explained that the Association was practically a committee of about thirty citizens enrolled at a nominal membership fee to look after the interests of the Boy Scouts and to promote the movement as much as possible. They were faced at present with a serious difficulty. Scoutmaster Weddell, before his departure for the East, had informed the Association that he could not see his way to carry on the work unless permanent quarters could be secured. The Scoutmaster had done invaluable work during the past eight years amongst the boys of the town, 138 of whom had passed through his hands, and it would be a great loss to the movement if he were to sever his connection with it. It therefore fell to the Association to endeavour to secure premises, which would also be required for use by an organization for the benefit of the girls, in regard to which the I.O. D.E., he understood, proposed to take action. The first thing required was a lot, and the Association had found one belonging to the City which would supply a suitable site, 60 by 150 feet, at the corner of Doyle Avenue and St. Paul Street, near the telephone office. The price set on it was \$400, and he wished to enquire whether the Council would be willing to show their goodwill to the Scouts by their terms of transfer. The Association considered the question of providing quarters for the young people of the town during the winter a matter of great importance, and deserving of assistance from the Council, especially as the Morrison Hall was no longer available and the A. and T. building would also be occupied.

The Mayor said his understanding of the proposition was that the Association wished the City to give a donation of \$400, with which the Association would purchase the lot. This was the only way in which the City could donate the lot, as the proceeds obtained from tax sale lands had to be placed in the Sinking Fund. Such a donation being of public money, the general public would expect access to the property, so that any proposed building would have to be available for other organizations as well as the Boy Scouts.

Mr. Ball did not want the Council to be misled in any way as to the objects for which the proposed building would be used. It would necessarily have to be primarily under control of the Boy Scouts Association. If the Scouts used it only two nights a week and the girls two nights a week for other bodies, and the Scouts would probably want more use of it than the minimum stated, as the Cubs would meet separately from the Scouts.

On Tuesday last there was a very pleasant dance in the fruit pickers' bunk house, organized by the Misses Dumbrell and Atchinson. Mr. Henry Armstrong kindly lent his piano. Mrs. Smith's catering is much appreciated by the girls and bachelors who enjoy their meals there.

The packers' boarding house, under the management of Mr. J. Stewart, is also going strong this year and have been asked by several to express the appreciation of the staffs of the packing-houses of his cooking.

(Continued on Page 8)

LOSS OF ANOTHER CANADIAN GOVT. STEAMER

"Canadian Importer", Sinks Off The Coast of Washington From Unknown Cause

SEATTLE, Aug. 25.—Her hold filling from some unknown cause, the Canadian Government Mercantile Marine steamer "Canadian Importer" sank early this morning off the Washington coast, according to wireless reports received by the Seattle Harbour Department. Some of the wrecked vessel's crew were taken aboard the Seattle steamship "Cordova," which rushed to the rescue in response to wireless calls for help. One lifeboat loaded with members of the crew is reported missing, and wireless stations all along the coast have flashed a warning for mariners to be on the lookout for the craft.

The location of the wreck is given as 39.49 degrees north latitude and 136.25 west longitude. At 8 p.m. last night the position of the "Cordova" was given as 623 miles south of the Columbia River Lightship. She was on her way to Portland from Honolulu, and shortly after midnight she received the distress call from the "Canadian Importer."

TERRIBLE MASSACRES IN SOUTHERN INDIA

Fanatical Mohammedans Slay Over One Thousand Whites

BOMBAY, Aug. 25.—More than one thousand white inhabitants of the Malabar region, in the western portion of Madras Presidency, have been slain during fierce rioting there. Maddened Mohammedan fanatics, the Moplahs, killing and burning and committing all sorts of excesses, are proceeding towards Calicut, the principal city of the district, while troops are being rushed to disperse them.

SINN FEIN'S REPLY REACHES DOWNING STREET

LONDON, Aug. 25.—The reply of the Sinn Fein to the British terms of peace was delivered at the Premier's official residence, Downing Street, at one o'clock this afternoon. Its terms have not yet been divulged.

EAST KELOWNA

The contractor has at last started work on the school and with four carpenters is making rapid progress. Nevertheless, it will be difficult for him to have the building completed by the opening of the term.

The wet weather is helping on the Irrigation District and there is still 11.2 feet in the reservoir. Even allowing for the fact that the last two feet cannot be used, this will be ample to give water to at least the end of September. The contractor is working hard on the Canyon Creek diversion ditch and in this issue is the advertisement for tenders for raising the dams which will give an additional 1,500 acre feet, so, as far as storage water is concerned, the District will be amply provided for years to come.

We are now picking Wealthies. The cool weather is bringing up the size of the fruit. It is a curious fact that a long spell of very hot weather, even if the trees are amply supplied with water, has the effect of stunting the size of the fruit.

We hear Col. Grieve has sold his lot on the Lower Bench to Messrs. Benson, Collett and Aitkens.

Mr. and Mrs. Berryman and family are stopping with Mr. D. Priestley.

Mr. Alfred Smith is enjoying a visit from his brother, who has arrived from Nova Scotia.

On Tuesday last there was a very pleasant dance in the fruit pickers' bunk house, organized by the Misses Dumbrell and Atchinson. Mr. Henry Armstrong kindly lent his piano. Mrs. Smith's catering is much appreciated by the girls and bachelors who enjoy their meals there.

The packers' boarding house, under the management of Mr. J. Stewart, is also going strong this year and have been asked by several to express the appreciation of the staffs of the packing-houses of his cooking.

REPORT ON CROP AND WEATHER CONDITIONS

Horticultural Branch Provincial Department of Agriculture

Vernon, B.C., Aug. 20, 1921.

Vancouver Islands and Gulf Islands
The prolonged dry spell which has been experienced at the Coast for the past six weeks was broken last night (16th inst.) and the morning of the 17th by a very heavy rain. It will do good but it is a disadvantage to the harvesting of grain, as there is a great deal cut in the field at the present time.

The sour cherry crop is practically over. Five cars were shipped from Victoria and the price realized was good.

Loganberries are still hanging on and the rain will be of considerable benefit to them.

Potatoes are not looking in good condition owing to the continued drought.

Yellow Transparent and Duchess apples are being harvested at the present time.

Apples in general are not sizing well owing to the drought but may move forward now with more moisture available.

Salmon Arm and Main Line Points
Early varieties of apples and plums are moving here. Size is good, but in apples colour is only fair.

Transcendent crabs are coming in fairly strong at Salmon Arm, and shipments of this variety are rolling from Kamloops.

A picking of Wealthy will be made here next week. This variety has sized up well, but McIntosh Red are a little behind in this respect. Corn and cukes are going out in small quantities.

Vernon

This district has been blessed during the last two days with some very heavy showers, which has had the effect of tempering the extreme heat from which we have been suffering the past two weeks, and likewise helping out moisture conditions of the soil.

All fruits seem to have been benefited by this change in weather conditions, and apples are sizing up nicely.

The Duchess crop is now about finished, and from observations and enquiries we find in most cases crops have gone over both growers' and shippers' estimates. Transcendent crabs are now in full swing, and the same applies to this fruit as the Duchess, that the crop is running high. Some nice stuff is going through the packing houses, but there is some small stuff that would be better turned into jelly.

The apricot crop is practically over and some very nice fruit has gone through the houses this year. Peaches and plums are now in full swing and it is expected to see Wealthy apples running in about ten days' time. It is early yet for more colour to develop on the Wealthy but it is hoped with the advent of cooler weather that colouring will be much improved. McIntosh are coming along very nicely, showing good colour for this period but as they have yet some time to go before picking the size should be improved very materially. Other apples and pears are sizing up very well. Bartlett's should begin to move about the same time as the Wealthy.

Vegetables are now rolling out heavily. Onions seem to be moving especially freely at this time of year.

Kelowna

A heavy rain fell early on the morning of the 17th followed by cloudy warm weather. All apples are sizing well but this rain will be of great value after the long dry spell. Water was becoming very scarce in some sections.

Duchess apples are about done. Alexanders are in. First picking of Wealthy will start next week.

Semi-ripe tomatoes have been moving in quantity but have shut down this week owing to full markets. Ripe tomatoes are coming in and are of good quality.

Transparent crabs are heavy and about half through, should clean up this week.

Tragedy pears should finish in a few days' and Burbanks and Bradshaws will come next.

Bartlett's and Clapps Favourite pears are just starting to come in. They are earlier than usual and should be picked promptly.

Pickling onions and small vegetables are in in quantity. Onions are a short crop.

(Continued on Page 2)

GIFTS THAT LAST

We are pleased
to announce a drop in price
of the famous
WALTHAM WATCH

16 size, 7 Jewel movement, was \$14.00,
now \$12.50.

16 size, 15 Jewel movement, was \$24.00,
now \$22.00.

16 size, 17 Jewel movement, was \$30.00,
now \$27.00.

This reduction applies to all models.

Now is the time to invest your money
in the most reliable watch on the
market.

Our price on watch cases is as low
as any mail order house and considerably
lower than most stores.

Immediately the manufacturers announce
a drop in the price of any
line carried by us we re-mark our
stock and take the loss smiling.

Let us fill your watch needs with a
Waltham.

JEWELERS - Casorso Block
W. W. PETTIGREW - Manager

REPORT ON CROP AND
WEATHER CONDITIONS

(Continued from Page 1)

Summerland

Tuesday night, Aug. 16th, this district had a splendid rain. Summerland Experimental Station recorded .55 inches. The rain was timely and has brought a cooler air with it, which will help to check premature ripening of stone fruits.

The movement of fruit and vegetables is increasing every week. Triumph peaches are over. Yellow St. John are beginning to move. Transcendent crabs are going out in car-load lots. Transparent, Red Astrachan and Duchess apples are about over in this district. Some Wealthy and Gravenstein apples and Clapp's Favourite and Bartlett pears picking has begun.

Burbank and Bradshaw plums are being packed out.

Grand Forks

Rain is badly needed in this district. The outlook for the fruit crop begins to look serious in those orchards unprovided with irrigation and, unless rain comes very soon, the yield is bound to be disappointing. The crop in the orchards which have water is sizing and colouring up remarkably well. The season as regards size and maturity is fully two weeks ahead of last year.

Some Scab is showing up on apples, and the work of the Leaf Hopper is also evident to some extent, but the crop as a whole is very clean. The unusual prevalence of orchard pests in the district this season has made many converts to the need of more thorough and general spraying, and next year will undoubtedly see a greatly increased effort in this direction.

Pears are sizing up well and are unusually well coloured for this time of year.

The new Central Packing House is rapidly nearing completion and is expected to be ready for occupancy by September the 10th. In the meantime packing is being carried on in the Cannery building. Up to date there has been shipped four cars of mixed fruit, comprising Yellow Transparent, Astrachan and Duchess apples, Transcendent crabs and Peach plums. Two cars of apples, chiefly Duchess, will be sent out this present week. These initial shipments have been of fair quality.

Prune shipments will commence the first week in September, and fifteen cars will probably be sent out.

Clapp's Favourite and Bartlett pears will be shipped next week.

Potato fields are showing the effects of the dry weather.

Irrigation for the Valley is the burning question of the hour.

APPLE CROP CONDITIONS
IN OKANAGAN DISTRICT

Indications throughout the District are that the estimate as given from this office under date of July 16th 1921, will be approximately correct. Certain factors have arisen and will arise which will cut down the grade and the tonnage in certain districts; for instance a hailstorm has reduced the crop in one district and in another district a water shortage is reported, but at the present time the effect on the tonnage will not be noticeable.

Jonathans are showing particularly well, as they are not only sizing better than for many seasons previous, but they are already showing a certain amount of colour for the season. Delicious are looking better than was first anticipated and the crop of McIntosh Red is of very fine quality. The early apple crop is over-running all earlier estimates and this may be taken as a fair criterion of conditions which will follow throughout the season, if frosts and other disturbances do not occur.

A warning might be issued at this time to the growers and all those concerned with the moving of fruit, to the effect that every effort will have to be made to move the crop in good shape. Reports which reach this office are that the crop in all districts is over-running all original estimates which were made by the growers, and in view of this fact it will be well not to overlook any detail which will ensure the successful harvesting of this crop. Up to date, shipments have been well ahead of the previous season and in some cases are two weeks in advance. This fact should be borne in mind very carefully and preparations made to harvest Jonathans and other varieties in good time in order to prevent the inevitable breakdown in storage and in transit, which has occurred during past seasons as a result of the picking being delayed too long. It is better business to harvest the crop in good season and perhaps sacrifice a little on colour in order that there may occur the minimum amount of loss from breaking down,

LETTERS TO THE EDITOR

THE QUESTION OF MAIL
ORDER HOUSE ADVERTISING

Salmon Arm, B.C.,
August 22nd, 1921.

The Editor,
Kelowna Courier,
Kelowna, B.C.
Dear Sir,—

Whilst the energetic manner in which you are striving to secure a greater volume of advertising from your local merchants is to be commended and is perfectly legitimate, care should always be taken that in so doing no injury or reflection is, knowingly or unwittingly, inflicted upon others.

We notice in your last issue a three-column advertisement of your own on this particular subject in which you set forth your policy as far as the advertising in the "Courier" is concerned. Whilst your policy is no concern of ours, we do feel that your reference to the "Salmon Arm Observer" is in the nature of a reflection, and the fact that the name of our publication was used by you, in this connection, without our permission, we feel it incumbent upon us to draw your attention to this fact and to request that in future you abstain from adopting such a course without first consulting us. Your inference that "these papers may have an excuse" contains the reflection complained of, since we have no "excuse" to offer and it was because of no "excuse" that we have accepted the advertising contracts referred to. Our only "excuse" for being in business at all is to make a living, and since the great majority of us have to resort to some means whereby we earn our daily bread, we see no reason why the means, as far as we are concerned, should be specially referred to in your columns, having regard to the fact that it is by similar means—that of printing and publishing—you are enabled to "carry on."

We cannot agree with your views regarding the acceptance of advertising from The T. Eaton Co., Ltd. (which is the particular contract we are interested in) as far as they concern our own particular field of operation. It is not a question of the Local Merchant vs. "Timothy" with us. That is not the point at all. We have many subscribers who very rarely come to town for very obvious reasons. Lack of adequate transportation is the primary cause for such an unfortunate condition. The consequence is that they very seldom come to town in order to "do their shopping."

To overcome this unfortunate condition, The T. Eaton Co., Ltd., issue periodically a sumptuous illustrated catalogue (famously known as the "Canadian Bible"—such a household document has it become) and whether the "Kelowna Courier" or the "Salmon Arm Observer" elects to accept advertising from The T. Eaton Co., Ltd., the fact remains that the public secure the Eaton catalogue and, in most cases, make good use of it. We, therefore, consider we render our subscribers a service which they are entitled to by accepting contracts for The T. Eaton Co., Ltd., and we know for a positive fact that the stand taken by you on this matter will not and cannot stop The T. Eaton Co., Ltd., from shipping goods into Kelowna as they have done all along.

Under these circumstances we must ask you to please delete the name of our publication from your advertisement and in fairness to our clients and ourselves we trust you will publish this letter in your next issue.

Yours faithfully,

THE SALMON ARM OBSERVER,
per Horace E. Moore.

(EDITORIAL NOTE.—We gladly publish the above letter, as we had no intention of hurting the feelings of our contemporary by using its name in our advertisement. In many of the smaller towns and villages of Canada publishers have been driven to accept outside competitive advertisements in order to carry on, owing to the lack of an adequate measure of support and encouragement by local business houses, but it appears that it is for no such reason the advertising of the T. Eaton Co. is accepted by the "Salmon Arm Observer." The viewpoint of the "Observer" in regard to this question is entirely different from ours, but if it gives the publisher any satisfaction to lay it before our readers, he is entirely welcome to the space.)

and the danger of the fruit not keeping being reduced at the same time. The cool showery weather which has prevailed the past three days is ideal from the standpoint of colouring the fruit, and, taking the whole Valley all around, conditions may be said to be the most satisfactory in the history of the Valley.

You Save Every Way—

Quality maintains economy.
No matter how much you pay
"per gallon" for other lubricating
oils you get more lubrication
"per dollar" when you buy
Imperial Polarine Motor Oils.

MORE mileage from every gallon of fuel and quart of oil; uninterrupted service from your car; slower depreciation; fewer repair bills and no lubrication trouble, just about sums up the savings and satisfaction enjoyed by users of Imperial Polarine Motor Oils.

The uniform high quality of Imperial Polarine Motor Oils, wherever you buy them, insures you more miles of correct motor lubrication for your dollar than you can obtain in any other way. Quality *does* maintain economy.

Our Chart of Recommendations shows the grade of Imperial Polarine Oils required to correctly lubricate your car. Use this grade exclusively and you will get the years of service and satisfaction which you have a right to expect from your car. Consult our Chart at your dealer's or write to 56 Church Street, Toronto, for a copy of "Automotive Lubrication," which contains the complete Chart and other useful information.

IMPERIAL OIL LIMITED
Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR

Not even Imperial Polarine Motor Oils will lubricate properly if mixed with grit and dirt. Your crank-case should be thoroughly cleaned every thousand miles or less. Dealers displaying the sign to the left will clean your crank-case in an expert and workman-like manner. Such dealers use Imperial Flushing Oil, the modern scientific cleansing agent. Employ crank-case service regularly and you will save hundreds of dollars every year.

Visibility—

as exists on the SUNDSTRAND means swift, sure results. Figures, keyboard and work are all within glance of the eye.

Sundstrand
ADDING MACHINE

handles all figure work with but 10 figure keys, one for each numeral. It is truly an all purpose machine, small, compact and accurate.

Let us demonstrate in your own office on your own work.

LECKIE HARDWARE LTD.

A JUST REBUKE

It was my custom in my youth, said a celebrated Persian writer, to rise from my sleep to watch, pray and read the Koran. One night, as I was thus engaged, my father, a man of practised virtue, awoke. "Behold!" said I to him, "thy other children are lost in irreligious slumber, while I alone awake to praise God." "Son of my soul," said he, "it were better for thee to be engaged in irreligious sleep than to wake to find fault with thy brethren."—The War Cry.

An appeal to the Supreme Court by several Chinese recently convicted in the Merritt police court having proved successful, the City of Merritt finds itself called upon to pay a sum of \$1955, representing the costs of litigation and refund of the fines imposed, the larger share being for the costs of the appeal.

A huge landslide took place on Wednesday of last week a quarter of a mile north of Crescent Beach, near Summerland. Thousands of tons of earth broke away on a steep slope and plunged into the lake. The lakeshore road was buried to a considerable depth for a distance of about 150 feet. The slide is attributed to the effect of water lying between the upper strata of soil and the bed-rock.

Crop Reports

From information collected through its network of Branches across Canada, the Bank of Montreal compiles periodical reports covering crop conditions in every part of the Dominion. These reports are transmitted over private telegraph lines to central cities, from which they are mailed free to persons desiring the information they contain.

If you wish your name to be placed on the mailing list, notify the nearest branch, or the Head Office in Montreal.

HEARTH-GLOW AND HOMESPUN

By Polly Peele

(Copyrighted by British and Colonial Press, Ltd., 1921.)

The Kitchen Cabinet

I wanted a kitchen cabinet. What new housewife doesn't want that shining acme of orderliness conceived by some master mind? I should think the person who invented the kitchen cabinet must live in a perpetual glow of pride and satisfaction. But I hadn't room in my kitchen for both a cabinet and a table. The cabinet is supposed to embody the table too, I know, but, as I like a wide-topped desk, over which I can spread my elbows when I write, I do I like a broad space for spreading out my utensils and ingredients when I cook. And, even apart from that, the top of the cabinet, in the only place it could possibly go, was going to interfere with my electric switch or the attachment for my iron, or both. Third, and by no means least in importance, was the matter of cost.

When it was decided, beyond all hope of alteration, that the cabinet was impossible, I set about to find the next best thing, and the first detail of it was a kitchen table equipped with two sliding boards for chopping and baking, two drawers divided into compartments, and beneath these, two bins, also divided into compartments, for flour, sugar and the like.

I consulted a carpenter about putting up white-painted shelves, with doors, in the space available between the electric switch and the plug for the iron. For this he wanted \$25, so I watched for such a bargain in medicine cabinets as I had found in kitchen tables, and when I found it I bought two. They were hideously grained, but two coats of white paint and one of enamel rectified that, and I hung one of them over the kitchen table and the other over the drain-board of my sink. In the former I keep my spices, flavouring extracts and small things of that sort, and in the other soap, washing powder, little scrub brushes and so forth. These cabinets, with the kitchen table, are my substitute for the kitchen cabinet, and all three cost less than \$18.

The cabinets each have a little round towel rack stretching from side to side, underneath. Picture hooks hung on this make it a good receptacle for such things as graters and egg-beaters, and implements with a curved handle, such as some lifters have, will hang on it directly, without the hook. Indeed, I find that picture hooks will make available for hanging things a good many places that otherwise would not be so.

Under a window on the right-hand side and at right angles to my sink and between that and the gas range I have a wide drop leaf shelf, which, like the kitchen table, is covered with the same inlaid linoleum that is on the floor. Heavy pots and pans will not injure this linoleum, and the shelf is a splendid place to put them when they are empty and waiting to be washed. With the table only two or three feet away and at right angles to the drain board, I have very convenient facilities for washing dishes, and, indeed, doing all the kitchen work.

WHEN THE PAPER DOESN'T COME

My father says the paper he reads ain't put up right.

He finds a lot of fault, he does, per- usin' it all night.

He says there ain't a single thing in it worth while to read.

And that it doesn't print the kind of stuff the people need.

He tosses it aside and says, 'it's strictly on the bum—'

But you ought to hear him holler when the paper doesn't come.

He reads about the wedding and he snorts like all get out.

He reads the social doin's with a most derisive shout.

He says they make papers for the women folks alone.

He'll read about the parties, and he'll fume, and fret and groan;

He says of information it doesn't have a crumb—

But you ought to hear him holler when the paper doesn't come.

He's always first to grab it and he reads it plumb clean through.

He doesn't miss an item or a want ad—that is true.

He says, "They don't know what we want—the darn newspaper guys, I'm going to take a day sometime an' go an' put 'em wise;

Sometimes it seems as though they must be deaf and blind and dumb—"

But you ought to hear him holler when the paper doesn't come.

—Topics.

GIVING FLOWERS VARIOUS COLOURS

England is the centre of the carnation world—all the carnations of new colours and combinations of colours are raised in the country and exported to every corner of the globe.

When a new variety has been raised it is increased by means of cuttings, and the new colour is then fixed.

It is a fascinating business giving flowers new colours—one calling for endless patience and judgment. But it is not necessarily the work of the carnation specialist. Even the owner of a small, well-ventilated sunny greenhouse can experience the joys of raising new improved varieties of carnations.

All the most distinct new colours in carnations are obtained from artificially fertilised seed. Each potential new plant is formed as the result of the union of two elements, the one male (the pollen) and the other female (which the male element reaches by means of the stigma). It is the fusion of the male and female elements produced by the flower.

Fertilisation can be successfully performed from March to October under glass or out of doors in hot, dry spells during the summer.

A carnation bloom first develops the pollen-laden anthers upon the stamens, which are in the centre of a nearly fully developed flower; these should be removed from the seed-bearing flower before the pollen is liberated.

Two or three days later two little horns will appear. These are the pistils. Tiny hair-like growths standing out along the entire length of the upper surface of the pistils will be noticed. These are the stigmas.

When these hair-like growths are well developed, assume a transparent appearance, and seem to be covered with tiny dewdrops, they are ready for pollination.

With the corner of a small piece of blotting paper take the yellow dust-like pollen from the selected male parent just as the anthers burst (which is as a rule, about midday in hot, sunny weather), and convey it to the stigmas. After that the flower should be protected with fine gauze against flies and beetles for fear they should interfere with the work.

If the operation—a simple one—has been correctly performed, the flower will close up in three days, in two months the ovary or seed pod will turn a dark brown and be fit to gather.

This will be found to contain a few precious black seeds, which should be sown in the usual way. Flowering will take place in about eight months' time, and a choice carnation of a new colour may be your reward.

The great art is in selecting the parents.

That is where the expert scores, for he knows the ancestral tree of all his carnations.

Still, great gardeners are born and not made, and you may be a great natural gardener.—Montagu C. Allwood, in Daily Mail.

"PORTER-HOUSE" STEAKS

Many people have attempted to trace the origin of the term "porter-house" steak to a man named Porter, who is supposed to have kept a restaurant in New York.

The real reason for the term was because, in the early part of the last century, there existed in New York a number of public houses where ale and porter were the favourite beverages ordered. These taverns or saloons came to be known as porter-houses.

The proprietor of one of these establishments on being asked for a particularly tender and appetizing steak, made the experiment of cutting the top off a joint which had been sent for his personal use. The customer was so pleased that he called a day or two later and demanded another of those steaks.

The fame of the tavern and its steak soon spread, and it was not long before epicures throughout the city were asking for porter-house steaks, and butchers, learning the secret of the cut, adopted the term themselves.—Tit-Bits.

Under the provisions of a by-law recently enacted by the Municipal Council of Spallumcheen, no motor vehicle carrying a load in excess of six thousand pounds may be operated upon any road within the municipality without a special permit.

The privilege of free verandah lights is being discontinued in the city of Salmon Arm after September 1st.

With three men aboard, the big seaplane which is now being employed by the Dominion Forestry Branch on fire patrol service in the Shuswap-Lake District, covered 250 miles in three hours and twenty minutes on a flight last week from its station at Kamloops to Sicamous, Mabel Lake and other points.

SUPPER DISH RECIPES

By A. L. Wyman, Chef.

Baked Rarebit

A baked rarebit is prepared by putting through the meat grinder one pound of Canadian cheese, half an onion and one cup of fried bacon. Mix these well with half a teaspoon of salt, two teaspoons of mustard, half a teaspoon of paprika, one teaspoon of table sauce and half a cup of buttermilk. Cut the top off a loaf of French bread, remove all of the soft part of the loaf, leaving a bread box. Fill the loaf with the well mixed cheese mixture, put on the top and tie with a string, wrap the loaf in oiled paper and bake in a medium oven half an hour. Remove paper and string and serve on a hot platter.

Plain Potato Salad

For a potato salad, mix in a bowl that has been rubbed with clove of garlic, two cups of cold boiled potato cubes, half a cup of chopped nut meats, one chopped sweet green pepper, four tablespoons of paprika, one teaspoon of salt and enough French dressing to moisten. Serve on lettuce leaves.

Potato Salad de Luxe

Another potato salad is made by mixing twelve cooked mushrooms cut in dice, four cold boiled potatoes cut in dice, and one head of celery cut in dice, one pimento chopped and one cup of shredded watercress; season with salt and pepper, moisten with lemon French dressing, arrange in a lettuce lined salad bowl, cover with a lemon mayonnaise and sprinkle over finely chopped capers.

Luncheon Party Halibut

A dish of baked halibut that will be nice for luncheon parties. Place six nice pieces of halibut, free from skin and bones, in a baking dish. Season with salt, add two tablespoons of water and cover with a piece of buttered paper, place in the oven and cook for five minutes, or until half cooked. Make a cream sauce of one tablespoonful of butter, two tablespoons of flour, two-thirds cup of cream and a half cup of milk and when smooth and thick add two tablespoons of grated Parmesan cheese, mix well and pour the sauce over the fish, sprinkle with bread crumbs and cook in moderate oven until a nice brown. Place over the top six slices of broiled bacon and serve in the dish that fish was baked in.

A Fancy Chicken Dish

For a nice chicken dish fry in olive oil a young chicken, weighing about three pounds, that has been cut in eight pieces and when a nice brown add one finely chopped onion, one chopped green pepper and two peeled tomatoes; fry for two minutes and add half a cup of washed rice, one clove of garlic and two cups of brown stock. Cover the pan and simmer for half an hour. Place the chicken in the centre of a hot platter and place around the cooked rice, pour over the sauce and sprinkle with chopped parsley.

The Veterans and Citizens Club at Armstrong has decided to throw open the club premises as a rest room for the ladies of the town and district from 9 a.m. until 5 p.m. daily.

The increase in the number of buffaloes in the Park at Wainwright, Alberta, has reached such proportions that it is proposed to slaughter one thousand of the animals this year. It is expected that a considerable sum will be realized from the sale of the meat, hides and heads.

THE KELOWNA COURIER AND Okanagan Orchardist.

Owned and Edited by
G. C. ROSE

SUBSCRIPTION RATES

(Strictly in Advance)
To any address in the British Empire \$2.50 per year. To the United States and other foreign countries, \$3.00 per year.

The COURIER does not necessarily endorse the sentiments of any contributed article. To ensure acceptance, all manuscript should be legibly written on one side of the paper only. Typewritten copy is preferred.

ADVERTISING RATES

Classified Advertisements—Such as, For Sale, Lost, Found, Wanted, etc., under heading "Want Ads." First insertion, 15 cents per line; each additional insertion, without change of matter, 10 cents per line. Minimum charge per week, 30 cents. Count five words to line. Each initial and group of not more than five figures counts as a word. Filing fee for box numbers, c/o The Courier, if desired, 10 cents extra.

Transient and Contract Advertisements—Rates quoted on application. Legal and Municipal Advertising—First insertion, 15 cents per line; each subsequent insertion, 10 cents per line. Contract advertisers will please note that, to insure insertion in the current week's issue, all changes of advertisements must reach this office by Monday night. This rule is in the mutual interest of patrons and publisher, to avoid a congestion on Wednesday and Thursday and consequent change of work, and to facilitate publication of The Courier so as to reach country customers before Saturday.

THURSDAY, AUGUST 25, 1921

Orchard Run

The Courier has completed its seventeenth volume and with this issue enters upon its eighteenth year of existence. Founded in 1904 by Mr. R. H. Spedding as the "Clarion," it has been in the hands of the present owner as the "Courier" since 1905, and has gradually evolved from four pages of five 18-inch columns each, supplemented by four pages of "ready-print," to its present eight pages, all home-print, of metropolitan seven-column size. Of fat years there have been few and of lean years a many, but the paper has managed to carry on somehow, and it is due to an increasing measure of support that the improvements effected this year have been carried out. Our fervent wish is that, as the years roll by, the Courier may keep pace with the progress of Kelowna and may be found worthy as its representative in the journalistic field.

As the scars of war slowly heal, the Okanagan is coming back to some of its pre-war enjoyment of life, of which the successful regattas held this year and last bear witness. The communities round Okanagan Lake are fortunate in the possession of such a splendid sheet of water, and they should make the most of it. During the past few years the motor car has usurped the place of the launch and sail-boat, but this, should not be. Any place with a stretch of road can use motor cars, but Okanagan Lake is unique, with its wide expanse of water, its genial temperature—much warmer than most lakes in the West—for aquatic sports in the summer months, and its populous communities, which should furnish a new crop of swimming and diving exponents each year. Once upon a time the regattas at Naramata and Summerland were welcome events and Okanagan Landing was a pioneer in such sports, and it is to be hoped the old-time spirit will return and that all these places will resume the holding of their water festivals and will join Kelowna and Pentteton in making the most of the opportunities that their position on the lake affords. The presence of rowing fairs and swimming and diving competitors from Vancouver and Nelson this year was a great encouragement, and a chain of regattas during July and August should prove a strong attraction to summer visitors from points less fortunately situated.

While reports from Ottawa indicate the possibility of a Dominion election this year, it is hardly reasonable to expect, at this juncture, to bring out an election, and passing a measure of redistribution, otherwise the West would be doomed to under-representation for the next four or five years. This might suit some Eastern politicians, who grudge the slow but sure passage of the balance of power to the sunset side of Lake Superior, but it would have disastrous results to the party in power from the just resentment of Western people in being deprived of what is their due.

If forecast of the census results have any value, British Columbia stands to gain nearly fifty per cent. in her representation in the Dominion House of Commons—and we need it. The Okanagan may then hope to have a Dominion representative of its own, discarding the obsolete and meaningless name of Yale, and thus to achieve a standing commensurate with the richness of its resources and its steady pace of progress.

measure of redistribution, otherwise the West would be doomed to under-representation for the next four or five years. This might suit some Eastern politicians, who grudge the slow but sure passage of the balance of power to the sunset side of Lake Superior, but it would have disastrous results to the party in power from the just resentment of Western people in being deprived of what is their due.

If forecast of the census results have any value, British Columbia stands to gain nearly fifty per cent. in her representation in the Dominion House of Commons—and we need it. The Okanagan may then hope to have a Dominion representative of its own, discarding the obsolete and meaningless name of Yale, and thus to achieve a standing commensurate with the richness of its resources and its steady pace of progress.

HOGS ON PASTURE

By F. C. Nunnick, in "Conservation"

Cost of production plays a very important part in determining the net profit a farmer makes on what he has to sell. Manufacturers of the articles that a farmer has to buy study the question of cost of production very carefully. The farmer produces many of the things the urban worker has to buy and should do more towards lessening production costs. Take as an example the production of pork. Economical production of pork depends largely upon the cost of feeds. This may be materially reduced by the use of pasture and forage crops in conjunction with the grain ration. If the pasture is luxuriant, mature hogs may be maintained in a satisfactory condition with a very small amount of grain in addition to the pasture.

Pasture forage has a variable composition. Alfalfa, clover, vetch and peas furnish feed much higher in protein than most other crops. Where such leguminous crops are used for hog pasture a smaller ration of concentrates is necessary than where timothy, bluegrass, or where the non-leguminous cereals are sown for pasture. Hog raisers differ in their opinion as to the quantity of grain that should supplement the pasture. Some give the hogs all they will eat, others from two to three pounds of grain per hundred pounds live weight of the animals, while some feed as low as one pound of grain per hundred weight of the live animals. The amount of grain which should be fed to growing hogs or hogs being fattened must depend on the quality and abundance of the pasture, the length of time available for finishing the animals and the gains being made. Plenty of clean water, clean quarters, and succulent pasture, along with the grain ration, will certainly reduce the cost of producing pork and increase the profits.

SCREEN GIVES REALISTIC VERSION OF NOVEL

Motion Picture of "The Sky Pilot" Reproduces Story With Singular Fidelity

Probably because of the fact that he thoroughly knows the subject whereof he writes, Ralph Connor's story, "The Sky Pilot," which King Vidor has directed as a motion picture, is one of the real gems among current motion picture releases.

Ralph Connor, otherwise known as Rev. Charles W. Gordon, a distinguished Canadian divine, whose steady occupation is not writing books but preaching the gospel, is to be congratulated upon the sincere manner in which the Cathrine Curtis Productions have translated his story to the screen. Few authors are fortunate enough to have as interesting a film version of their work as the Rev. Dr. Gordon.

The story deals with a young minister who is sent into the ranching country of the Canadian West to spread the gospel among the cowboys. His trials and tribulations, his fights, his faith, his hope are masterfully interpreted by King Vidor through John Bowers, who plays the title role. How the "sky pilot," unpopular at first, wins a place for himself in the hearts of the cowboys, who surprise him on Christmas morning by leading him blind-folded down a snow-covered trail to show him the little frame church they have built without his knowledge, forms the human note of the story, which is featured by several smashing dramatic scenes.

"The Sky Pilot" will be seen at the Empress Theatre on Monday and Tuesday next, August 29 and 30.

RUTLAND

The Misses Bell and Nellie McRobbie left on Saturday last for their home in Vancouver after spending an enjoyable three weeks visiting Mr. and Mrs. G. Schofield.

The Misses Agnes and Georgina Barber returned on Saturday from a visit to Wolsley, Sask.

Another party of nomads have pitched their tent on the Collins property, in the persons of Mr. and Mrs. Featherstone, of Calgary. They expect to remain about two weeks. Mr. Knowlton, C.P.R. agent at Standard, Alta., is also spending a few days of his vacation with Mr. and Mrs. J. F. Collins.

We understand that all four of the new teachers have been engaged. A re-arrangement of the school classes will be made at the commencement of the new term, the Principal, who will be a man, will in future take up only High School work.

The Rutland Boy Scouts held a voluntary church parade on Sunday last, some seventeen boys attending. The Troop marched to the Presbyterian church, where Rev. J. A. Dow delivered a special address to the boys.

Mr. John F. Guest has purchased a new style of truck, a "Day-Elder," which has an unusually large carrying capacity.

The attention of local organizations is drawn to the fact that the R.A.C.—Boy Scout Clubroom is now available for meetings of any kind. The chairs from the assembly hall have been moved there and it is hoped to have a portion of the platform and the piano installed shortly. For information, application should be made to the Secretary of the R.A.C., or to the Scoutmaster. The room has a seating capacity almost as large as the front half of the old assembly hall.

We wish to correct an error which appeared in the last issue. The victim of the runaway accident was not Mr. Tom Barber, as stated, but Mr. Will Barber.

We regret to learn of the sickness of Mr. and Mrs. Geo. White's little daughter, Flora, who is in the Kelowna Hospital suffering from an abscess on the arm.

Mrs. Ben Hardie arrived back on Tuesday from Vancouver, but a certain young lady and her niece, who accompanied Mrs. Hardie on the outward journey, became so dazzled by the unaccustomed "bright lights" or stopped too long to gaze at the tall buildings, so that they missed their train!

Under very sad circumstances, Mr. Arthur Turner, son of Mrs. J. Turner, came to his death on Tuesday night. He had been engaged in picking crab apples for Mr. Guest at Ellison, and being missing on Tuesday evening, his brothers set out to look for him. After prolonged search, his body was found about 1 a.m. on Wednesday morning in an irrigation ditch. It seems that the unfortunate young man was subject to fits, and when overtaken by an attack had fallen into the ditch and perished. Coroner Weddell decided that an inquest was unnecessary, medical examination of the body having determined the cause of death.

The deceased, who was about twenty-five years of age, is survived by his mother, three sisters, and several brothers. His father died last year, about a year after moving here from Alberta.

The deep sympathy of the entire community goes out to Mrs. Turner and family in their sudden and tragic bereavement.

A large framed metal sign, about eight feet square, has been erected this week in the C.P.R. "garden" at the passenger wharf, fronting on Bernard Avenue, by the Kelowna Automobile & Good Roads Association. The sign, which is from the brush of Mr. T. Treadgold, is an outline map of Kelowna and district in colours, showing the motor roads in red, and the public spirit of the Automobile Association, in providing something of real service to touring motorists, is highly to be commended.

Many Lines Being Added Daily
to our

J. N. CUSHING,

Pound Keeper. 1-2c

POUND SALE

Notice is hereby given that, on the 3rd day of September, at 1 o'clock, I will sell at public auction in front of the Pound at Glenmore Ranch, Glenmore (and being within my Pound District) the following animals, namely: One black cow and calf, cow brand appears to be

on left hip, and left ear clipped, and one yearling roan heifer, brand appears to be O on left hip, and left ear notched. Dated this 22nd day of August, 1921.

J. N. CUSHING,
Pound Keeper. 1-2c

TIMBER SALE X 3347

Sealed tenders will be received by the District Forester, Vernon, not later than noon on the 5th day of September, 1921, for the purchase of Licence X 3347, near Westbank, to cut 88,200 feet of Pine and Fir Saw-logs. One year will be allowed for removal of timber.

Further particulars of—
The Chief Forester, Victoria,
The District Forester, Vernon.

1-1c

KELOWNA AGRICULTURAL AND TRADES ASSOCIATION

Applications for floor space for industrial exhibits at the Fall Fair, to be held on 5th and 6th October, will be received by the undersigned up to 15th September, after which the price for space will be set and same allotted.

H. G. M. WILSON,
Secretary. 52-5c

Every time you spend a dollar for B.C. products, fifty cents is put in the pockets of B.C. workmen. 1-2c

LOCAL AND PERSONAL

Mrs. Dave Crawford was a passenger to Vancouver on Friday.

Chief of Police Thomas went to Salmon Arm on Saturday to spend a short vacation.

Mrs. J. K. Moore and Miss Beatrice McClure were passengers to Vancouver on Tuesday.

Messrs. A. Badley and H. McCallum left by motor car on Monday for Pense, Sask.

Dr. Wilson Herald has returned to the city after seven weeks' visit to up-country towns.

Miss Blossom Buck left yesterday to begin her course of training at the Vancouver General Hospital.

Mr. and Mrs. A. J. Smith returned home on Saturday from a visit to Vancouver.

Miss G. Davidson went to Assiniboia, Sask., on Saturday. She was accompanied by Misses G. and M. McCartney.

Mr. J. M. Davison, C.P.R. agent, is on the sick list this week, being confined to the Hospital with an attack of colitis.

Mr. Harold Small arrived last week from Sugar Lake, where he spent most of the summer, and is visiting his mother, Mrs. J. C. Stockwell.

Dr. W. J. Knox is attending the first annual clinical congress of the B.C. Section, American College of Surgeons, which is in progress at Vancouver this week.

After thirteen years absence on the prairies and on service with the Canadian Engineers overseas, Mr. Thos. W. Morden has returned to Kelowna, having recently been discharged from Shaughnessy S.C.R. Hospital, Vancouver.

The three Indians committed by Magistrate Weddell for trial on a charge of stealing and killing two steers belonging to Mr. D. Gellatly, appeared before Judge Swanson at Vernon on Wednesday of last week and were convicted. Basil McLeod was sentenced to two and a half years in the penitentiary and Joe McLeod and Basil Jack to two years each.

Major M. J. Crehan, of Crehan, Mouat & Co., auditors, was a visitor to town for a couple of days this week, leaving for the north this morning. He is still on crutches as the result of a severe accident sustained last spring while riding.

Mrs. W. R. Phillips and Mrs. Chas. Thompson, of Hamilton, Ont., who, together with Miss Gladys Thompson, had been visiting their sister, Mrs. W. D. Harvey, left on Tuesday afternoon for a trip to the Coast before returning home.

According to the "Oroville Gazette," Mr. Frank Fraser, formerly of Kelowna, is making great improvements on his property on the east side of Osoyoos Lake, where he purchased a portion of what was formerly the Leslie Hill estate. Last spring his tract was covered with sage brush. Since then the sage has been removed, he has broken 14 acres, planted 1,500 fruit trees and a large acreage of tomatoes, and has built flumes for irrigation purposes. The trees are thriving and the property promises to be a very choice one.

Mr. S. T. Elliott, President of the Agricultural and Trades Association, started off on Tuesday on a long motor car trip for the purpose of advertising the Kelowna Fall Fair and Stampede. His itinerary begins with a visit to the American Okanagan, which our southern neighbours spell Okanagan. After reaching a point about fifty miles south of the boundary line he will return north by the Similkameen Valley and will proceed via Princeton, Aspen Grove, Merritt and Spence's Bridge to Lillooet, which will likely be the northern limit of his journey. He will return home via Ashcroft and Kamloops, and the trip is expected to take two weeks to cover.

When a tin of British Columbia jam is sold, those who benefit in this province are—the farmer, jam factory employees, box makers, tin makers and label printers. When a foreign product is given preference, none of these profit. Last year British Columbia imported more than six million pounds of canned fruits.

TENDERS WANTED

Tenders are invited for painting the South Okanagan School buildings. Full particulars can be obtained either from C. C. Fuller, Secretary, Okanagan Mission, or H. Emmens, janitor of School.

All tenders to be sent to the Secretary of the School Board, Okanagan Mission, on or before Aug. 31st. 1-1c

Mr. O. Heywood was a passenger to Vancouver yesterday.

Mr. H. Southam went to Victoria yesterday.

Mrs. A. H. DeMara is paying a visit to Kamloops.

Miss B. Pugh left on Tuesday for a vacation at the Coast.

Major MacDonald made a trip to Wallachin on Friday.

Miss D. Denison, who has been visiting her parents here, returned to Vancouver this morning.

Mr. G. H. Fox left for England on Saturday. He will sail by the "Canada" from Montreal, on Aug. 27.

Mr. R. A. Copeland, President of the United Farmers of B.C., was in town on Monday.

Mrs. Black returned on Wednesday from a holiday spent in yachting on the Coast.

Mrs. R. Welch and Miss N. Chapman, of Salmon Arm, visited friends in Kelowna yesterday.

Miss Ursula Whitehead left on Friday to take a nursing course at St. Joseph's Hospital, Victoria.

Mr. J. W. Kinsky left this morning for a business visit to the prairies which will entail an absence of three or four months.

Mrs. H. Cozens, President of the Rebekah Assembly, paid an official visit to the local Rebekah lodge last night.

Mr. R. N. Young, Superintendent of C.P.R. Telegraphs, Vancouver, paid an official visit to town on Friday.

Messrs. Morrison, York and Cook, of Vancouver, inspectors of the Royal Bank, are carrying out the customary audit of the local branch this week.

Mrs. R. G. Williams and little daughter Peggy, also Miss Vera Riddell and Miss Isobel McNab, all of Calgary, have been visiting Mrs. DeMara at "Blossomlea."

Miss D. V. Atkin, who had been a member of the staff of the Royal Bank here for the past three years, left on Wednesday to go into training at the Vancouver General Hospital as a nurse. As a parting token of their esteem, the staff of the Bank presented her with a purse of gold.

The marriage of Floyd Willard, only son of Mr. and Mrs. C. W. Faulkner, of Kelowna, to Winnifred May, youngest daughter of Mr. and Mrs. W. A. Williams, of New Westminster, was solemnized on Aug. 15 at St. Barnabas Church, New Westminster, by the Rev. R. Bartlett. The happy couple arrived on Monday to take up residence in Kelowna.

Mrs. T. M. Longmuir and daughter, who have been making an extended tour of the West, left on Monday for their home in St. Joseph, Missouri, after five weeks' visit to Mrs. Longmuir's brother, Mr. J. A. Bigger, of Glenmore. They were greatly pleased with the Okanagan and especially with the Kelowna district.

In pleasing contrast to recent influxes of Chinese, a number of girls and women arrived from the Coast on Saturday to work for the Dominion Cannery, who are making a manful effort to dispense with Oriental labour. If all large employers would take the same stand, the Oriental problem would quickly solve itself.

A justly angry rancher living on the K.L.O. road would like the person who stole the big pumpkin from a field beside the road to tell the owner how much it weighed, as knowledge of the weight would afford some little satisfaction to the grower for the trouble he took in producing it and also to others who were interested in its enormous growth. It was truly a shabby, mean theft, and the rancher offers, if the pumpkin is put on exhibition somewhere in town, to replace it with another that, although not so large, will answer the purpose for cooking just as well.

OKANAGAN AUTHOR WRITES ANOTHER BOOK

The fall catalogue of Messrs. George H. Doran & Co., publishers, New York, contains an advance notice of a new romance of the Okanagan Valley by Mr. Robert Watson, of Vernon. It will be published in Canada and the United States early in September, and is also to be produced in Great Britain. The notice promises that the story will be "a stirring adventure-romance of the West, a romance told with all the vigour of a rough and rugged country."

Durable, Good Looking Shoes

For School Wear

Shoes which boys and girls wear to school in all sorts of weather must be made to stand more than the average service. They must not be unseemly and above all they must fit so well that they give full comfort all day long.

Our school shoes have been selected according to the most exacting specifications and embody every essential that is required in footwear for growing feet.

Kor-Ker Shoes Specially Priced. Reg. up to \$6.75

\$2.95 and \$3.95

Knitting Wools in Great

THE RICHTER STREET GREENHOUSES

THE PRAIRIE FRUIT MARKETS BULLETIN

(From the Weekly Report of the B.C. Markets Commissioner.)
(Continued from Page 1)

The present time are very poor. Apparently some of the cars have been rolled without being sold, and everybody knows what this means when they arrive. It is too bad that this policy has been followed by the shippers of the cars because it makes everybody a little careful or timorous and the net results usually are that the total turn-over on the market is not as great as if the proper policy had been pursued. A large quantity of the B.C. cucumbers that we have seen to date have arrived here over-ripe and are not saleable except as job stuff. There are a few cars of Washington stuff coming in but the bulk of the arrivals to date have been B.C.

Regina

REGINA, Aug. 17.—Blackberries arriving in refrigerator car were in good condition and commanded a ready sale. L.C.L. shipments are arriving soft and are hard to dispose of. Some retailers here are buying Ontario tomatoes and putting them in the 4-basket crate and are selling them as B.C. Could the B.C. packers not protect their package?

Winnipeg

WINNIPEG, Aug. 17.—Business since last report has been fairly brisk, large quantities of fruit of all kinds have been arriving, some small lots of late raspberries and strawberries from B.C. The following shipments have been received. B.C.—1,528 crates blackberries, 15 crates strawberries, 35 crates raspberries, 2 cars apricots, 4 cars mixed fruit, 3 cars apples, 3 cars crab apples, 1 car cherries. Imported—7 cars apples, 5 cars peaches, 8 cars pears, 12 cars mixed fruit. Ontario—2 cars mixed fruit, 4 cars apples.

Vancouver

VANCOUVER, Aug. 17.—Whole-sale prices follow:

Apples, Yellow Transparents,	
No. 1	\$2.75

Expected Rise in Prices

Reports from Yakima and Wenatchee are very encouraging. Dealers who visited the eastern part of Washington from Seattle say that the wholesale row in Seattle looks quiet after what they saw in Wenatchee and Yakima.

Buyers from the East were there in force, and the bidding for the season's fruit was lively. The International Shippers' Association of Cincinnati, Ohio, started the ball rolling in western box apple buying. Sales there were made of Extra Fancy Jonathans, at \$2.15 per box, while the Extra Fancy Delicious brought

\$3.25 to \$3.50 per box. A 60,000 box lot of Newtons, 150 or larger sold at \$1.80; Extra Fancy Spitz, \$1.95, and Winesaps, \$1.95.

Some individual sales of Idaho, Rome Beauty and Jonathan brought for Rome, \$1.90, Jonathans, \$2.10. A fifty car sale of Idaho peaches brought \$2.50 per bushel.

In Yakima, 3,500 of cannery pears have been sold at \$40.00 per ton, with expected advance to \$50.00 per ton. Elberta peaches have advanced from 75c to 90c per box.

Wenatchee apple growers are refusing to sell after September 1st. Prices offered there are not as high as those quoted from Cincinnati.

Potatoes are scarce and prices have advanced both in Oregon and Washington. Taking the general outlook in the United States and Canada, we feel safe in saying that all fruits and most of the vegetables, particularly onions and potatoes, are due to rise in price. B.C. potatoes are today selling for less than any other state or province from the Gulf of Mexico and Alaska.

Standardized Packages

The Lower Mainland can outlive Niagara Peninsula and any other berry-growing district anywhere, but in extended marketing they must have a package that is legal in the United States as well as the Canadian market.

The North-Western States and British Columbia grow the same grade of produce and compete on the same markets, therefore the same package, grade and standards should be used.

The chief difference at present is in the raspberry, blackberry and loganberry hallock. The American legal hallock is the shallow pint, and the crate when full contains 18 lbs. of fruit. The B.C. crate is 2 1/2 quart and when full contains 15 to 16 pounds of fruit. When a surplus of fruit arrives on the Winnipeg market, we cannot ship to Minneapolis. St. Paul or Chicago without marking the package "short," because our package is not legal there.

We quote market prices in Chicago on August 15 to show what we mean:

Washington Blackberries (quality fair), 24 pints	\$3.50 to 3.75
California Blackberries, 24 pints	3.00 to 3.25
Michigan Blackberries, 24 pints	2.00
Washington Raspberries (good) 24 pints	5.75 to 6.00
California Loganberries (demand fair) 24 pints	4.50
Washington Loganberries, 24 pints	4.75 to 5.00
F.O.B. Shipping Point Prices	
California—	
Gravenstein Apples, extra fancy, per box	2.50
Washington—	
Pears, Bartlett, fancy, per box	1.75
C Grade, per box	1.30 to 1.40
Peaches, Elberta, per box	.90 to .95
Prunes, Yakima, per box	.75
Prunes, Walla Walla, per box	.65
Plums, Tragedy, per suit case	.80
Ontario—	
Grapes, 6 quart basket	.55
British Columbia—	
Apples, wrapped, per box	2.25
Apples, crated	1.75
Crab Apples, Transcendent, per box	1.25
Peaches, Yellow St. John, No. 1	1.50
Peaches, Yellow St. John, No. 2	1.25
Tomatoes, per crate	.90
Cucumbers, per crate	.50
Potatoes, Okanagan, per ton	28.00
Onions, per ton	50.00
Pears, Bartlett, No. 1, per box	2.50
Pears, Bartlett, No. 2, per box	2.50
Edmonton Potatoes, per ton	25.00

No Profit In Shipping No. 3's

We notice that No. 3 apples are not likely to be shipped from the Okanagan Valley this year, and in this move we fully agree. There is no one wants poor grade apples; true, there is a demand for cheaper apples as well as everything else, but No. 3 British Columbia apples are not wanted on this market at the price they are usually quoted at. The spread necessary between No. 1 and No. 3 is or should be about \$1.00 per box, considering the value in apples they each contain. No. 1 apples are quoted from \$2.00 up, f.o.b. shipping point. It costs the same for the No. 3 box as for the No. 1, the cost of freight is the same, and they are harder to sell, so that the selling cost is fully as great. Now consider the estimated cost of placing apples on the market.

Cost of freight to Calgary,	.45
Cost of box	.25
Cost of wholesale handling	.40
Cost of retail handling	.40
Cost of overhead in assembling	.25
	\$1.75

(Continued on Page 6)

WATER NOTICE

Diverison and Use

TAKE NOTICE that Land & Agricultural Company of Canada, W. F. Caldwell, R. Caldwell, H. Latta, T. Morrison, C. Nelson, N. Nelson and A. B. Connell, whose addresses are Rutland, B.C., will apply for a licence to take and use .1 c. ft. of water out of the group of springs about 500 ft. North of the centre point of Sec. 31, Tp. 27, Osoyoos Division, Yale District.

The water will be collected at that point and carried in a pipe some 5,000 ft. to the West, and will be used for domestic purpose upon the land described as Lots 19, 21, 22, 24, 26, 28, 29, 30 and 45 of Sub-division Plan made by H. H. B. Abbott, B.C.L.S., Kelowna, B.C.

This notice was posted on the ground on the 9th day of August, 1921. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

Land & Agricultural Company of Canada, W. F. Caldwell, R. Caldwell, H. Latta, T. Morrison, C. Nelson, N. Nelson and A. B. Connell, Applicants.

Go to the "COURIER"

COUNTER CHECK BOOKS

Instead of giving your order for Counter Check Books to a travelling salesman, give a local firm a chance to quote you an equally interesting price.

Counter Check Books constitute a special branch of printing work, requiring a large outlay in costly automatic presses and other expensive machinery in order to produce them with a minimum of hand labour and at the lowest possible cost in large quantities. The country printer, with his limited equipment, cannot compete in this field, and we have therefore accepted an agency for a firm of Counter Check Book manufacturers, who avoid the greater cost of employing a traveller by paying their agents a commission which in no way raises the cost of the books to purchasers.

The standard Counter Check Books are made up in a number of sizes and styles, either with carbon-back original or inserted carbon leaf, on any of which we shall be glad to quote prices. Or, if something else is needed to meet special requirements, we will obtain quotations from the manufacturers, whose prices are very reasonable.

BOY SCOUTS' COLUMN

Troop First Self Laid
Edited by "Cougar."

22nd August, 1921.

We would again ask any intending recruits for the Scouts and Cubs to hand in their names as soon as possible to A. S. M. Parkinson. If these recruits act promptly, they can be assigned to different Patrols and proceed with their Tenderfoot and Second Class tests immediately the meetings re-commence.

During his recent visit to Vancouver and on the occasion of a most successful Boy Scout and Wolf Cub Field-day, Dr. James W. Robertson, Chief Dominion Commissioner, presented silver crosses to Scout Gibbs for rescuing a small boy from drowning in False Creek, and to Scout McPhillips for very good work in an apartment house fire, both of the 4th Vancouver Troop. This Troop won the Physical Training and Signalling Competitions which were held in Vancouver.

Commencing from Vancouver, Dr. Robertson and the Assistant Dominion Commissioner, Professor J. A. Stiles, are touring through the Western Provinces in the interest of the Boy Scout Movement. The following is an extract from an address delivered by Dr. James W. Robertson before the Canadian Club, Vancouver:—

"Scouting, the gist and essence of it, is mental content worth. Labour and learning, self-discipline and service, love and affection. Scouting provides the setting for the realization of ideals like that. The uniform is an attraction, but the true value of the Boy Scout System lies in the sense of honour that it instils. It is the spirit that counts. Then there is the gang instinct and that is where the troop comes in. Democracy with individualism running rampant is all wrong. We must have equality with recognised leadership, and that is what the Boy Scout Movement provides."

THE PRAIRIE FRUIT MARKETS BULLETIN

(Continued from Page 5)

This is an expense of \$1.75 without the apple cost, nor does it provide for packing, risk in transit through weather conditions and other causes. It shows that no profit can be made to the grower from shipping No. 3 apples.

Apricots from B.C.

We have seen some fine apricots from B.C. this year, but over 75 per cent were on the small side. Some good cots were packed 3x3 open instead of 5x5 close, leaving the maximum of blank space and a light pack; others were laid in flat 4x4 and failed to reach the top of the basket.

Apparently some growers were afraid to have the fruit over the tin top and finished just under it, others were half an inch under. We do not expect a correct pack of any fruit until a weight minimum is established. Bushels, quarts and pints space get us nowhere; the minimum weight content is a sure guide to a full package.

Fruit Advertising Campaign

We notice the display ads. featuring B.C. fruit, its merits and when it will roll, appearing in daily and weekly papers in the different centres. These ads. are being paid for jointly by the growers and shippers of B.C., wholesalers and retailers of the prairie cities.

The attention of housewives is being especially drawn to the time to buy different fruits. It is pleasing to know that all those contributing to this educational campaign are satisfied with the immediate results, to say nothing of the future good advertising does to fix in the public mind the high quality of British Columbia produce.

The wholesale and retail merchants of the prairie would not spend their money co-operating with B.C. shippers unless they were convinced that they had the goods to deliver.

Revelstoke will celebrate Labour Day with lacrosse, football and baseball games.

G.W.V.A. NOTES

We are going to have a smoking concert on the first Saturday in September and have received a liquor permit for that evening. We hope to have some new talent from Vernon or Penticton and have suggested to our branches that we will reciprocate if they want help at any time. We are also trying to get some up-to-date choruses. Barrett's orchestra has been engaged.

We were glad to see the outspoken editorial in the "Courier" last week on the Oriental question. It is very convenient for some ranchers to employ people who will work any hours and board themselves, but these same employers are the first to kick if they have to meet Oriental competition.

We notice that the G.W.V.A. at Vernon recently called a public meeting to discuss this question.

WESTBANK

Master Ralph Jones was a passenger north on Monday's boat.

Mr. J. Morris Wright, of the Bowes Music house, was in town visiting with old friends.

A baby girl was born to Mr. and Mrs. W. Hewlett on August 15th.

Mr. W. M. Buchanan was in town on Saturday, August 13th. Mr. Buchanan, formerly of Peachland, is now fruit inspector.

Mr. J. Basham is now the proud father of a baby girl born in Westbank, August 12th.

Mrs. Howlett, who has been spending a short time in the Kelowna hospital, has returned to her home here.

Mr. C. Butt was a visitor to Kelowna on Tuesday last.

Mr. J. L. Dobbin spent last Wednesday in Kelowna, returning by the stage in the afternoon.

The fruit crop is moving somewhat slower the last two days than usual, pears and a few apples being the only output.

Mr. H. Brown was a visitor to the city of Kelowna last Tuesday.

Miss Helen Smith, who has been staying in Kelowna for some time, returned to her home here last Saturday.

The Scouts held their weekly meeting here during the last week-end and spent two good days scouting, etc., Scout-master James coming over the second day.

The recent rain has cracked the tomatoes badly, and the sky looks dark enough for more, so the tomato grower will have quite a job culling-out the cracked ones.

A party and dance was held in Mr. and Mrs. McIntosh's house on Saturday evening and a very enjoyable evening was spent.

Mr. A. E. Drought was a visitor to Peachland last Monday and Saturday to take part in the Oakley-Davidson case.

Mrs. J. Moffatt and Master Jim Bell were passengers south on Monday, going as far as West Summerland by car.

Mr. Laing's team, which had mysteriously disappeared, has been found by some Indians here.

Dr. William Buchanan paid two business trips to Westbank on Monday and Thursday.

The weekly picnic was well attended on Saturday, but the showery weather prevented much gaiety.

As the result of a ballot taken by mail, the citizens of Kaslo have decided that their war memorial shall take the form of a monument to be erected at the end of one of the city streets.

By unanimous vote of the ratepayers who polled, the agreement between the Municipality of Penticton and the West Kootenay Power Co. for supply of electric power was endorsed on Thursday last.

PRIZES AT IMPERIAL FRUIT EXHIBITION

Substantial Cash Awards Will Replace Cups Originally Offered

The report of the Fruit Commissioner's Branch, Dominion Department of Agriculture, for the month of August states that many individual apple growers and associations of fruit growers have expressed their appreciation of the opportunities offered by the Imperial Fruit Exhibition for advertising the excellent quality of Canadian grown apples, but, as the prizes to be awarded to the successful exhibitors were in the form of cups and medals, they felt that the expense in putting up a creditable exhibit was more than they could undertake.

In regard to this point it is now announced that the following awards will replace cups as formerly offered in the British Empire Section: First prize, gold medal and £50 in cash; second prize, silver medal and £25 in cash; third prize, bronze medal and £10 in cash. One large importer in London offers cash prizes of £10 each for the best exhibits of Nova Scotia, Ontario and British Columbia apples respectively, and a combination of importers offers to the winner of first prize in each of the fourteen classes a cash prize of £5. A special prize of £25 will be given to the winner of the highest aggregate of points in the Overseas Section. To the winner of the highest aggregate points in the United Kingdom and Overseas Sections a cup valued at £100 will be awarded.

The entrance fee for the British Empire Section has been reduced from £2 10s. to £4.50, and for the Overseas Section from £1 to £2.25. Applications for entry in the Overseas Section and the British Empire Section should be made to the Fruit Branch, Department of Agriculture, Ottawa. The closing date for entries in the competitive classes is Sept. 30th.

Award of points will follow the subjoined schedule:

Fruit:	Points
Size, best commercial	10
Colour, finish and skin quality	15
Condition, soundness, firmness, freedom from blemish, flavour and quality	25
Uniformity of size and colour	15
Packing:	
Quality of pack	30
General appearance	5

Growers and dealers who wish to advertise their brands in the non-competitive class should send their entries to Mr. Howard Chaplin, Imperial Fruit Exhibition Department, Daily Mail, 10 Fleet Street, London, England.

KELOWNA REPRESENTED AT PENTICTON REGATTA

(Continued from Page 1)

themselves, Weir and Day coming out as winners.

Kelowna also cleaned up the standing dive, A. Edwards taking first place and J. F. Burne, second. Edwards also took second place in the springboard dive, which was won by C. Burch, of Penticton.

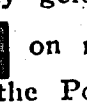

The boys' under water swim was won by H. Mantle, of Kelowna, who made 101 feet as against 76 for T. Beatty, who took second place.

D. Hinkson, of Kelowna, won the fifty yards open swim, with C. L. Wraith, of Penticton, second. His victory gave Hinkson permanent possession of the Wagenhauser Cup, which he won in 1914, since which time it has not been up for competition.

Messrs. J. F. Burne and J. S. Boucher, of Kelowna, were included among the judges, and the Penticton officials were very appreciative of the keen interest shown by the Kelowna sportsmen in the Regatta.

During the evening two dances were held, at the Incola and the Aquatic, and the Kelowna visitors enjoyed themselves hugely and returned much pleased with the outing.

POUND NOTICE

Notice is hereby given, under Section 20 of the "Pound District Act," that one bay gelding, branded  on left shoulder, and one bay gelding, branded appears to be  on right hip, were impounded in the Pound kept by the undersigned on Glenmore Ranch, Glenmore, on the 22nd day of August, 1921.

J. N. CUSHING,
Pound Keeper.

Figures based on careful conditions in British Columbia were submitted to the Conference on Unemployment at Vancouver recently, showing that if the citizens of the province would give preference to local goods, every man and woman resident in British Columbia could be given employment.

CITY LOT AS SITE FOR BOY SCOUTS' HALL

(Continued from page 1)

The Mayor emphasized that, if public money was granted, use of the building could not be restricted to the Boy Scouts alone.

Mr. Mantle pointed out that some one organization would have to be responsible for upkeep of the building, taxes and other expenses, as the outlays could not very well be split between several bodies.

Mr. Ball said the building could not be turned into a free gymnasium, as it would then be over-run with boys who did not belong to the Scouts.

Ald. Meikle expressed cordial appreciation of the good work done by the Scout movement and hoped the Council would aid it as much as lay in its power.

Ald. Leckie, who heartily agreed with Ald. Meikle's remarks, suggested as a way out of the difficulty that a lease be given of the lot instead of a deed, on payment of the ordinary rate of interest on the value of the property and taxes. This would give the Scouts exclusive control such as they desired.

Mr. Mantle stated that the proposed building would cost between \$4,000 and \$5,000, and the taxes upon it would amount to a considerable sum with the interest on the value of the lot added.

On hearing the value of the projected building, Aldermen Knowles and Rattenbury, who added their meed of praise to the Boy Scout movement, declared in favour of placing it in the Park, whose attractiveness, they held, would be enhanced by an artistic edifice. They were soon undeceived, however, by Mr. Ball, who informed them that the nature of the construction would be rough lumber, battened, as it would not be possible to put up a better class of building with sufficient floor area for the maximum expenditure contemplated. Other members of the deputation also objected to a site in the Park as being too remote from the centre of the residential district.

The Mayor favoured Ald. Leckie's proposal to lease the lot desired by the Association, and stated that the City had power, under the Municipal Act, to grant a lease for a term not exceeding twenty years. He asked whether the deputation considered a lease would be satisfactory.

Mr. W. Lloyd-Jones—"Yes, if at a nominal rent. Otherwise the cost would come too high if rent was added to the taxes levied on the lot and the improvements which would be effected."

The Mayor then promised, on behalf of the Council, that some action would be taken, and the deputation returned thanks and withdrew.

Further discussion ensued, during which Ald. Knowles strongly advocated a site in the Park, but he met with no support from his colleagues, and the matter was disposed of by a resolution to the effect that Lot 26, Plan 432, be leased to the Boy Scouts Association for a period up to twenty years at a rental of \$1.00 a year and taxes, on condition that a building be erected thereon for use as a Boy Scouts Hall.

Mr. S. M. Gore wrote that he proposed to move his steam laundry, provided a suitable site could be got sufficiently near the sewer line for disposal of from 100,000 to 200,000 gallons of water a month, that current would be available for a 15 h.p. motor and that a 1½-inch water connection could be obtained. He enquired what City lots were for sale on the sewer line.

The Mayor stated that the four lots formerly owned by the Curling Club constituted the only City property on the sewer line. He had accordingly got Chief Engineer Blakeborough to make a report as to the cost of furnishing power, water and sewer connections to the property in question. The engineer placed the total cost of connections, transformers, etc., at \$383.25, and favoured the outlay, as the services would be in operation the year round and would thus be profitable.

It was decided to offer the four lots, 6, 7, 8 and 9, Block 10, Map 262, to Mr. Gore for \$1,500, the services to be furnished as desired.

A motion was passed formally endorsing the action of the Mayor in agreeing to purchase for the benefit of the Sinking Fund £3,000 sterling of Pacific Great Eastern B.C. government bonds at 75½, from Gillespie, Hart & Todd, Ltd., Victoria. The price of the bonds, which mature in 1942, was stated by the Mayor to be 1¼ points less than that at which a previous purchase had been made.

Another formal resolution was put through for issue of \$6,500 par debentures at 5 percent to the Provincial Government, as security for the loan recently made to the City under the Better Housing Act.

By-law No. 313, being an amendment of the Streets and Sidewalks Regulation By-law, was reconsidered, final-

ANNUAL FREE SCHOOL CHILDREN'S ENTERTAINMENT

P. B. Willits & Co. have arranged for
Peck's Bad Boy
to be put on at the
EMPRESS THEATRE
Tuesday Afternoon, Sept. 6th
at 3 o'clock.

We want every scholar in Kelowna and district to be there.

48 Cans for a Letter

For the best letter as to why you like Pacific Milk better than any other kind, we are going to give a full case of large size cans of Pacific Milk free.

We don't care particularly how the letter is written, what it is written upon, or whether you use pen or pencil. The reason we like it best will be the only thing to be judged.

All letters must be sent to P.O. Box 882, Vancouver B.C.

Pacific Milk Co. Ltd.
328 Drake St., VANCOUVER
Factories at Abbotsford and Ladner, B.C.

MY "PREMIER" POLICY PROVIDES A PENSION FOR LIFE

For those disabled by illness or injury and unable to work. THE COST IS SMALL IF YOU GET IN TOUCH WITH ME PROMPTLY.

One day's delay may prevent your receiving the splendid advantages of this excellent policy.

Phone 358
(With F. R. E. DeHart)
Other hours at home phone, 216
(N.B.—It costs nothing to investigate)

ly passed and adopted.

By-law No. 314, conveying Lot 14, Plan 1,039, to Mr. John Kirschner at a price of \$100, was given three readings.

Ald. Meikle, chairman of the Board of Works, reported against filling the slough across the street which runs past the A. and T. grounds. The slough was just a hole, according to what he had seen of it, with neither inlet or outlet, and a few planks would put the bridge across it in quite serviceable condition. It would cost at least \$200 to fill the slough, and the money could not be spared at present with much more important work waiting to be done.

An offer of 1,700 cords of slabs from the Kelowna Saw Mill Co., at \$3.25 per cord, was accepted, subject to payment for the wood as it is used.

The Council adjourned until Tuesday, Sept. 6th, owing to the regular night of meeting falling on a public holiday, Labour Day.

E. W. WILKINSON & CO.

Established 1893.

REAL ESTATE AND INSURANCE
Corner Bernard Ave. and Water St.
Phone 254

30 ACRES.—29 acres under cultivation, of which 3¼ are in orchard and the balance in grain, roots and hay. Bungalow of 7 rooms, with bathroom, two open fire places, hot and cold water, etc. All necessary out-buildings. Price, \$18,700. \$5,000 cash, balance on terms.

10 ACRES.—9¼ acres in full bearing orchard, mostly Macintosh and Delicious. House of 5 rooms, with cement basement, stable and henhouse. Price, \$6,000. \$5,000 cash, balance on terms.

See our list of City Residential Properties.

Be prepared against Fire. Insurance is the only protection.

SOUTH-EAST KELOWNA IRRIGATION DISTRICT

Tenders for the Construction of Earth Dams

Sealed Tenders will be received by the Board of Trustees of the South-East Kelowna Irrigation District up to 6 p.m. on the 29th day of August, 1921, for the construction of one Earth Dam (No. 5) and the raising of two Earth Dams (Nos. 2 and 3) at the District's Reservoir on Hydraulic Creek at McCulloch, on the Kettle Valley Railway.

Plans and Specifications may be seen at the Office of the Secretary to the Trustees, Room 8, Crowley Block, or at the Office of F. W. Groves, Engineer to the District.

The approximate quantities in the said works are as under:

	Cub. Yds.	Raising Dam No. 2	Raising Dam No. 3	Dam No. 5
Earth Fill	6783	9635	3157	
Puddle core wall	417	1195	332	

Excavation for puddle core wall 100 530 99

Excavation in rock for puddle core 100

Scraping off surface dirt 110 205 1000

Clearing and stumping dam site and borrow pits. Acres 1 2

The Contractor will be required to deposit with the Secretary to the Trustees a certified cheque equal to ten per cent. or an approved bond equal to 20 per cent. of the amount of the contract.

Contractors can tender on all the works, or on one or more of the dams, and shall state price per cubic yard as measured in the borrow pits. The lowest or any tender not necessarily accepted.

HARRY B. EVERARD,
Secretary to the Trustees.
